# EGE UMUT CAN

Istanbul, Turkey | egec42957@gmail.com
Portfolio: ege211.github.io/macroeconomic-data-lab | GitHub: github.com/ege211

## EDUCATION

**FMV Işık High School (Ispartakule Campus), Istanbul** | September 2023 to June 2027 (expected)

- Turkish National High School Diploma (MEB). GPA 90.0/100; High Honour Roll every semester.
- AP exams through independent self-study (the school offers no AP courses): AP Microeconomics and AP Macroeconomics completed; AP Calculus and AP Psychology scheduled for May 2027.
- Financial Markets, Yale University on Coursera (Robert Shiller): in progress since October 2026.
- Docklands Academy London summer school, June 2024 and June 2025: CEFR B2, B2+ and C1 English certificates from a British Council accredited school.

## INDEPENDENT RESEARCH

**Banking-crisis early-warning study** | 2026 | github.com/ege211/global-financial-crisis-ews

- Combined World Bank indicators for 76 economies (1990 to 2025) with IMF banking-crisis dates and tested, year by year from 2000 to 2008, whether simple indicators could flag a crisis a year ahead, training only on earlier years.
- Adding private credit and current-account balances raised the crises caught from 4 to 9 of 19, but all nine came in the year before 2008; outside that year the model caught 0 of 4. Reported the result as unstable over time. Random forests did not beat logistic regression.

**Capital allocation in US investment banking, 2020 to 2024** | 2026 | github.com/ege211/strategic-capital-allocation-investment-banking

- Hand-collected data from 40 Form 10-K filings of eight firms: Goldman Sachs, Morgan Stanley, JPMorgan Chase, Stifel, Evercore, Lazard, Moelis and Jefferies.
- Rebuilt the dataset from SEC filings after finding transcription errors. Buybacks had no clear link to the banks' next-year return on equity ($r = -0.25$, not significant). Goldman Sachs, Morgan Stanley and JPMorgan kept CET1 ratios of 13.1% to 17.4%, while in the 2023 slowdown the advisory boutiques kept paying staff as fees fell, so pay rose to as much as 84% of revenue.

**Do annual reports predict profit margins?** | 2026 | github.com/ege211/ai-assisted-equity-valuation

- Taught myself Python to test whether 10-K text improves out-of-sample forecasts of operating-margin changes for 30 US non-financial firms (2014 to 2024), using only information public at each filing date.
- The text added no predictive power over accounting ratios ($p = 0.23$), and adding all twelve text features made forecasts worse. Reported this negative result in full.

**Macroeconomic Data Lab** | 2025 to present | ege211.github.io/macroeconomic-data-lab

- Built an open-access site comparing growth and inflation in five economies with live World Bank data, alongside my essays on Turkey's central bank, the lira, Gulf oil wealth and ESG.
- Wrote "The Fragility of Liquidity" on the September 2026 Borsa Istanbul fund disruption, in which regulators suspended 131 funds; proposed liquidity buffers and longer redemption notice periods.

**Arsenal FC: club finances and results, 2015/16 to 2024/25** | July to September 2026 | github.com/ege211/sports-finance-performance

- Built a ten-season dataset from audited Companies House accounts, 128 transfers and match statistics. Transfer spending was more closely linked to the next season's expected points than to the same season's ($r =$

0.62, nine season pairs), which I treated as a pattern to test, not proof.

**Inditex (Zara) strategy case study** | 2026

- Used Porter's Five Forces, the value chain and VRIO to explain why Inditex's linked system of store data, near-shore production and inventory is hard to copy, and why the same links make it fragile.

## INTERNSHIPS

**TEB Faktoring A.Ş. (TEB, BNP Paribas Group), Istanbul** | Finance, Budget and Reporting Department | 10 to 18 August 2026

- Observed budget preparation and monitoring, financial reporting and the review of income and expense items, and compared budgeted figures with actual results to see how they feed into assessments of the company's performance and management decisions.

**Tenda Technology Turkey, Istanbul** | Trade Marketing and Commercial Operations Intern | 3 to 14 August 2026 (part-time, alongside TEB Faktoring)

- Logged retail inventory velocity, monitored regional pricing and shadowed account managers in B2B partner reviews (mentor: Şamil Doğan, Sales Manager).

**TEB Arval (BNP Paribas Group), Istanbul** | Business and Sales Management | 19 to 26 January 2026

- Observed how the business and sales teams work with corporate fleet-leasing clients and how the company's departments are organised; completed tasks assigned within Human Resources.

**Haber Tekstil Dış Ticaret (Boohoo supplier), Istanbul** | Export Department | January to February 2026

- Followed customs documentation, order tracking and shipping schedules for European retailers, and saw that buyers valued on-time delivery as much as price.

**Forage virtual case studies** | June to October 2026

- Bank of America (valuation and financial modelling; Cert ID 6abe47c5f4c40355e64a36e4), Citi (bank KPIs) and Goldman Sachs (credit and risk assessment).

**Hazev Restaurant, Canary Wharf, London** | Front-of-House Placement | Summers 2024 and 2025 (arranged by Docklands Academy London)

- Worked alongside the front-of-house team during busy lunch and dinner service in London's financial district, welcoming guests, organising tables and passing orders and requests between service staff and the kitchen.
- Saw how speed, teamwork and staying calm under pressure decide whether customers leave satisfied, and how a restaurant plans staff around peak hours.

**Limehouse Library Hotel, London** | Front-Desk Placement | Summers 2024 and 2025 (arranged by Docklands Academy London)

- Supported front-desk staff with guest check-in and check-out and daily coordination with housekeeping at a boutique hotel in East London.
- Helped international guests with questions and local directions in English every day, and compared how service works in a calm hotel setting with a fast-paced restaurant.

## ACTIVITIES

- **Sister School Book Collection Campaign (Kardeş Okul Projesi)**, 2023 to present: helped organise a book donation campaign for a rural primary school, collecting, sorting and packing textbooks and storybooks donated by classmates.

- **School football team (striker)**, 2023 to present: 3rd place, Istanbul Inter-District High School Tournament, 2024 to 2025.
- **Piano**, ongoing: classical and modern pieces.

## SKILLS

- Languages: Turkish (native), English (CEFR C1, Docklands Academy London).
- Tools: Python (pandas, NumPy, scikit-learn, statsmodels, matplotlib), Excel, HTML/CSS, Git.
- Data: World Bank WDI, IMF Laeven-Valencia crisis database, SEC EDGAR, Companies House.
